GLOBAL INTEGRATED SOLUTIONS

Customize your own purchasing team in Asia...

GIS

INTEGRATED SOLUTIONS

ORDER MANAGEMENT - OPEN PROJECT

Per project, GIS can become your commercial partner and your representative buying office in China, providing you with the security and benefits of having a foreign managed team to support your Supply Chain management strategies.

Objective

To offer a complete OPEN BOOK PO Management solution that allows the Customer, without any initial investment, to account with a regional buying office in China and/or greater Asian countries, in order to lower the costs, to track on manufacturing progress and deliveries, to ensure quality results, to minimize risks and to develop a long-lasting Buyer/Supplier cooperation.

Who can benefit from Open Project?

Companies aiming to have a **LOCAL TEAM** to manage their procurement projects, but at the same time with a limited budget & regional experience to implement these operations on their own.

Typical corporation's types...

- Private small & Mid-Size companies prospecting or with current business in China and greater Asian countries.
- Trading Companies and Customs agents.
- Importers.

Our Commitment...

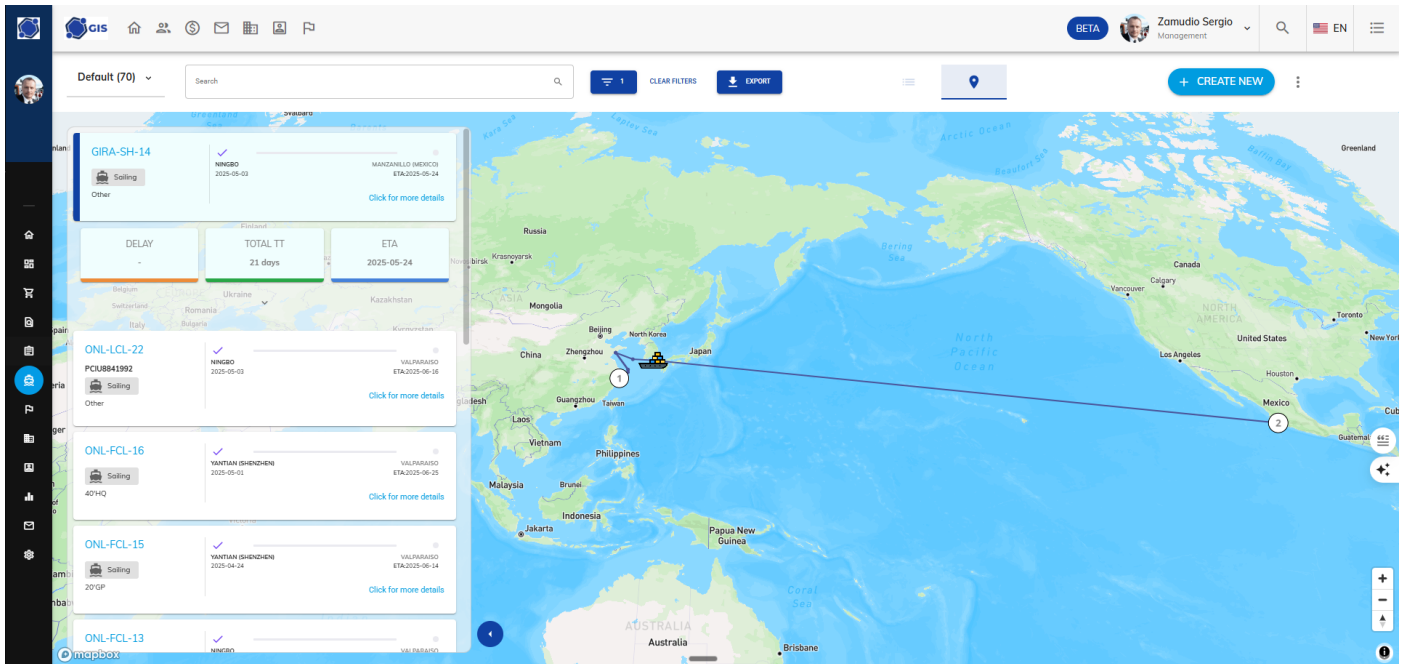

- **Maximize Your Operations.** Concentrate in what you are good at, generating more business; avoid unnecessary investments, rents, utility expenses, legal disputes with employees, uncontrollable situations.
- **Lower Costs.** No investment required, no direct employees, no facility and fixed cost to cover.
- **Maximize your profits.** Our Procurement Team will constantly source for your products and achieve better negotiations and prices with a wider variety of suppliers all over China and greater Asian countries.
- **Issue Handling & Resolution.** **GIS** takes responsibility for the verification of all components and products to be in conformance with customer's quality requirements and standards. In case of existing any non-conformance or discrepancy, upon the receipt of all proven materials and reports at customer's site, **GIS** will support and represent you (*according to the selected Open Project solution & legal standing*) enforcing the necessary means and negotiation activities for the partial or full replacement of the non-conformant material(s).
- **Continuous Improvement.** **GIS** is in complete disposition to its customers/partners for the implementation and enforcement of any corrective/preventive action requested that will bring any kind continuous improvement measures to the product/service development.

Long Term Proposal

- The product development and the vendor management are on-going practices; the aim for **GIS** is to always provide the best cost/effective solution to our customers over time. We seek for long term business relationships; therefore, we demand to our Customers the opportunity and space for learning and comply with their requirements starting from today.

GIS TECHNOLOGICAL EDGE

Revolutionizing Your Supply Chain Management Experience

At Global Integrated Solutions (GIS), we deploy cutting-edge technology to provide unmatched transparency, control, and operational efficiency:

- ✓ **iOrderSmart (Web & Mobile):** Your command center for logistics. Manage, track, and oversee all your orders and shipments in real-time, 24/7, from any device.
- ✓ **AI-Powered Support & Analytics:** Our sophisticated Artificial Intelligence systems offer instant interaction, intelligent problem resolution, and insightful analysis of your logistics needs, ensuring proactive and smart solutions.
- ✓ **Automated Proactive Notifications:** Stay informed without the effort. Receive timely, automatic updates via **WhatsApp, email, or your preferred communication channel** at every critical stage of your shipment.
- ✓ **Seamless API Connectivity:** Integrate your business systems effortlessly. Our robust API capabilities allow for complete communication between your proprietary applications and our logistics platform, creating a fully synchronized supply chain.
- ✓ **Best Market Pricing & Instant Real-Time Quotes:** Access highly competitive rates and receive immediate tariff information through our intelligent chatbot. We are dedicated to providing optimal value and transparent pricing.

OPEN PROJECT SOLUTIONS

Extended NDA. We make sure to sign local contracts to protect your IP in case of potential infringement.	-	
Consolidated & Secure Payments. We consolidate & release payments based on product conformance, compliance to your terms and your approval.	-	
Urgent Financial assistance. We will assist you, covering operations, sample, and development costs up to 100USD/event. Payable at the end of the month.	-	

OPEN PROJECT SERVICE FEES

FOB Value Per Shipment/Container	FEES as % of FOB Value
Up to \$10,000 USD	USD1K (*USD698)
\$10,001 to \$25,000 USD	10% (*5%)
\$25,001 to \$50,000 USD	8% (*4%)
\$50,001 to \$100,000 USD	7% (*3%)
\$100,001 to \$150,000 USD	6% (*2%)
Above \$150,000 USD	5% (*1%)

* Applicable ONLY when orders go through GIS (Exporter or Legal Representative of Customer)

* Applicable ONLY when orders don't go through GIS (**NOT** being Exporter or Legal Representative of Customer)

- All service fees will be payable 100% once the final quality report is delivered and the goods leave China or greater Asian countries.

Expenses not covered in Open Project:

All cost of samples' freight and Taxes.

All pre-order expenses related to supplier visits, trade fair companionship or audits to Suppliers, unless there is a development fee involved for new products.

Air transportation and lodging in very remote areas are not included; these expenses shall be covered by customer per event when applicable.

GIS may handle all documents for export, order tracking and will provide Online Tracking cargo information, although GIS will NOT be responsible for late fees due to untimely payments by clients.

If goods are due to Customs inspection where units or pieces are lost, damaged or incomplete, GIS will not hold responsibility for these events.

Additional government fees, inspections, and other issues beyond of GIS's control, such as Shipping Delays, Inland Freight setback and/or any natural disaster might be notified to the customer but at the same time, not representing a direct responsibility for GIS.

Thank you for your business and trust!
Global Integrated Solutions
